- Microservices | Distributed Systems | Frontend | Backend | Full-Stack | English, Hindi, Russian

Experience

Junior Flutter Developer & Consultant

[SpikePoint Infotech](#)

06/2024 - Current

- In my role at SpikePoint Infotech Solutions, I serve as a full-time Flutter Developer and consultant, contributing to the development of a **university application** while actively engaging in various company operations like developing a **sales pipeline**.
- Requirements Gathering:** Collaborating with managers to capture and define project requirements, ensuring alignment with business goals for new initiatives.
- Flutter Development:** Developing and maintaining mobile applications using Flutter, focusing on delivering high-quality user experiences and functionality.
- Cross-functional collaboration:** Working closely with team members from various departments to drive projects forward and ensure effective communication throughout the development process.

Frontend Developer

[Brickow](#)

Bangalore, India 08/2023 - 11/2023

- During my internship at Brickow.com, a construction billing application, I contributed to the development and enhancement of the product in its early stages
- Testing:** Conducted thorough testing of all changes implemented by team members, ensuring a smooth user experience and maintaining high quality.
- User Experience Improvement:** Enhanced the user experience for the mobile version of the web application, making it more intuitive and user-friendly
- React Dashboard Development:** Developed and maintained a dashboard using React, providing users with easy access to key features and information.
- REST API Integration:** Integrated RESTful APIs in React to facilitate seamless data exchange and enhance application functionality

Android Developer Intern

[Awto.ai](#)

Bangalore, India 06/2023 - 10/2023

- During my internship at Awto.ai, a startup focused on innovative parking solutions, I played a vital role in enhancing the **mobile application**
- Bill Generation:** Developed and implemented a user-friendly bill generation feature, streamlining payment processes for customers.
- Bluetooth Functionalities:** Integrated Bluetooth capabilities for IoT devices, enabling real-time data exchange and improved user interaction.
- Flutter to Java Migration:** Led the migration of application components from Flutter to Java, optimizing performance and reliability.
- UI/UX Collaboration:** Worked on UI/UX design to create intuitive interfaces that enhance user engagement and satisfaction.

Teacher

[Optimal Academy](#)

Haryana 20/2020 - 10/2022

- At Optimal Academy, I had the privilege of **founding and managing** an educational institute where I taught science, physics, and mathematics according to the Indian syllabus.
- Successful Teaching:** Guided over 150 students, fostering their understanding and appreciation of science and mathematics, leading many to achieve their academic goals
- Curriculum Development:** Developed and tailored lesson plans to meet the specific needs of my students, ensuring a comprehensive understanding of the subjects.
- Team Building:** Collaborated with and hired new teachers, creating a diverse and skilled faculty to enhance the educational offerings of the academy.
